Dear Registrar

As per the instructions contained within the letter and application form documentation; I have had to scan the letters pertaining to page - vi – VI. 20. Statement concerning other international proceedings. This allowed me to use the required referencing system and to number pages that had none.

If you would require the letters simply photocopied then please advise for their prompt attention.

I am not aware which are international or national, but, if just one had found in my favour, then that would have gone some way towards resolving the matter nationally. Unfortunately, none would in any event, as they themselves are co-conspirators with the evidence and circumstances obviously showing that, along with, that there has been a number of attempts in making my life unbearable, and that there has been an attempt in murdering me and that I am marked for death, therefore, I have supplied the majority of the final twisted responses received from those I have complained to. I have also inserted some comments that are indented and bullet pointed on the section on page - vi – VI. 20. Statement concerning other international proceedings and the continuation sheets.

The European Convention on Human Rights have been deliberately infringed by the authorities (civil servants) believing that I would not have the capacity and fortitude to bring my treatment by public bodies before The European Court of Human Rights.

Yours sincerely

Martin Glasgow
